## Explanation of Storm and Hurricane Warnings.

*Storm Warning.*—A red flag with a black center indicates that a storm of marked violence is expected.

The pennants displayed with the flags indicate the direction of the wind; red, easterly (from northeast to south); white, westerly (from southwest to north). The pennant above the flag indicates that the wind is expected to blow from the northerly quadrants; below, from the southerly quadrants.

By night a red light indicates easterly winds, and a white light above a red light, westerly winds.

*Hurricane Warning.*—Two red flags with black centers, displayed one above the other, indicate the expected approach of a tropical hurricane, or one of those extremely severe and dangerous storms which occasionally move across the Lakes and northern Atlantic coast.

**No night hurricane warnings are displayed.**

**Thanksgiving Day:** Is observed in all the States and in D. of C.

**December 25. Christmas Day:** In all the States and D. of C.

There are no statutory holidays in Miss., but by common consent the Fourth of July, Thanksgiving and Christmas are observed.

**Arbor Day** is a legal holiday in many States, although in some it is observed as designated by the Governor.

There is no national holiday, not even the Fourth of July. Congress has at various times appointed special holidays. In the second session of the 53rd Congress, it passed an act making Labor Day a public holiday in the D. of C., and it has recognized the existence of certain days as holidays, for commercial purposes, but, with the exception named, there is no general statute on the subject. The proclamation of the President designating a day of Thanksgiving only makes it a legal holiday in the D. of C.

### **USEFUL INFORMATION FOR CONTRACTORS**

One thousand shingles, laid four inches to the weather, will cover one hundred square feet of surface and five lbs. of shingle nails will fasten them on.

One-fifth more siding and flooring is needed than the number of square feet of surface to be covered because of the lap in siding and flooring.

One thousand laths will cover 70 yards of surface and 11 pounds of lath nails will nail them on.

Eight bushels of good lime, sixteen bushels of sand and one bushel of hair will make enough good mortar to plaster 100 square yards.

One cord of stone, three bushels of lime and a cubic yard of sand will lay 100 cubic feet of wall.

Cement one bushel, and sand two bushels, will cover 3½ square yards, one inch thick; 4½ square yards ¾ inch thick, and 6¾ square yards ½ inch thick.

One bushel of cement and one bushel of sand will cover  $2\frac{1}{4}$  square yards one inch thick: 3 square yards  $\frac{3}{4}$  inch thick, and  $4\frac{1}{2}$  square yards  $\frac{1}{2}$  inch thick.

### Amount of Paint Required for a Given Surface

It is impossible to give a rule that will apply in all cases, as the amount varies with the kind and the thickness of the paint, the kind of wood or other material to which it is applied, the age of the surface, etc. The following is an approximate rule: divide the number of square feet of surface by 200. The result will be the number of gallons of liquid paint required to give two coats: or divide by 18 and the result will be the number of pounds of pure ground white lead required to give three coats.

### Roof Elevations

By the "pitch" of a roof is meant the relation which the height of the ridge above the level of the roof-plates bears to the span, or the distance between the studs on which the roof rests.

The length of rafters for the most common pitches can be found as follows from any given span:

$\frac{1}{4}$  pitch, multiply span x .559 or 7-12 nearly  
 $\frac{1}{8}$  pitch, multiply span x .6, or 3-5 nearly  
 $\frac{3}{8}$  pitch, multiply span x .625, or 5-8 nearly  
 $\frac{1}{2}$  pitch, multiply span x .71, or 7-10 nearly  
 $\frac{5}{8}$  pitch, multiply span x .8, or 4-5 nearly  
Full pitch, multiply span x 1-12, or 1-18 near.

To length thus obtained must be added amount of projections of rafters at the eaves.

As rafters must be purchased of even lengths, a few inches more or less on their length will make a difference to the pitch so slight that it cannot be detected by the eye.

Example—To determine the length of rafters for a roof constructed one-half pitch, with a span of 24 ft.— $24 \times .71 = 17.04$ ; or prac-

tically just 17 feet. A projection of one foot for eaves makes the length to be purchased 18 feet.

## **POINTS OF CONSTITUTIONAL LAW.**

Congress must meet at least once a year.

Congress may admit as many new states as desired.

One state cannot undo the act of another.

By the Constitution every citizen is guaranteed a speedy trial by jury.

A power which is vested in Congress alone cannot be exercised by a State.

One State must respect the legal decisions and laws of another.

Congress cannot pass a law to punish for a crime already committed.

A person who commits a felony in one State cannot find refuge in another.

Bills for revenue can originate only in the House of Representatives, but the Senate may propose or concur with Amendments.

Treaties with foreign powers are made by the President and ratified by the Senate.

The territories each have a delegate to Congress who is allowed the privilege of debate, but not the right to vote.

The Vice-President, who ex-officio presides over the Senate has no vote in that body except in case a tie ballot.

If the President holds a bill longer than ten days while Congress is in session it becomes a law without his signature.

An act of Congress cannot become a law over the President's veto except on a two-thirds vote of both houses.

The House of Representatives may impeach the President for any crime, but the Senate has the sole power to try all impeachments.

An Officer of the United States Government is not permitted to accept any title of nobility, order of honor, except with the permission of Congress.

Amendments to the Constitution of the United States require a two-third vote of each House of Congress, and must be ratified by at least three-fourths of the States.

The President of the United States must be at least 35 years of age; a Senator 30; a Congressman, 25; The President must have been a resident of the United States fourteen years.

A naturalized citizen is not eligible to the office of President of the United States. A male child born in a foreign land to American parents has an equal chance to become the President with one born on American soil.

The United States shall guarantee to every State a Republican form of government, and shall protect each of them against invasion, and on application of the Legislature or of the Executive (when the Legislature cannot be convened), against domestic trouble.

## **BRIEF BUSINESS LAWS**

Principals are responsible for the acts of their agents.

Contracts made on Sunday cannot be enforced. Written contracts concerning land must be under seal.

Notes do not bear interest unless it is so stated.

If a note is lost or stolen, the maker is not released if the consideration and amount can be proved.

Demand notes are payable when presented, without grace, and bear legal interest after a demand, if not so written.

An endorser on a demand note can be held only for a limited time, variable in different states.

To be negotiable a note must either be made payable to bearer or be properly endorsed by the person to whose order it is made.

If the endorser desires to avoid responsibility, he can endorse "without recourse".

Notes becoming due on Sunday or a legal holiday are, as a rule, payable on the day following.

A note made on Sunday, or one dated ahead of its issue, is void, but it may be dated back.

If a note is altered in any way by the holder it becomes void.

A note made by a minor is void in some states and is voidable on judicial decision in others.

A contract with a minor or a lunatic is void.

If a note is not paid when due, the endorsers, if any, should be legally notified to be holden.

A note obtained by fraud or given by an intoxicated person cannot be collected.

It is a fraud to conceal a fraud.

Signatures with lead pencil are good in law.

The acts of one partner bind the others.

Each individual in a partnership is responsible for all debts of the firm except in the case of a special partnership.

The word "limited" in connection with firm names indicates a limitation of responsibility for each member.

An agreement without consideration of value is void.

"Value received" should be written in a note, but it is not necessary. When not written, it is presumed by law or may be shown by proof.

A consideration is not sufficient in law if it is illegal in its nature.

An endorser of a note is exempt from liability if not served with a notice of its dishonor within 24 hours of its non-payment.

If a letter containing notice of protest of non-payment be put into the Post Office, any

mis-carriage does not affect the party giving notice.

Notice of protest may be sent either to the place of business or residence of the party notified.

A receipt for money is not legally conclusive.

## FIRST TRANS-ATLANTIC FLIGHT

The first trans-Atlantic non-stop flight was made by Col. Charles Lindbergh in 1927 in a single motored Ryan Monoplane. Leaving New York, Friday, May 20th, at 7:52 a. m., he arrived in Paris, Saturday, May 21st, at 5:31 a. m., accomplishing the flight in 33½ hours.

## FIRST AID TO THE INJURED.

Extracts from instructions "For First Aid To Injured".

A SHOCK—If faint and cold give stimulant in small doses, once in fifteen or twenty minutes and secure warmth by external applications or rubbing.

BLEEDING FROM WOUND—If from an artery, stop the current of blood to the wound by putting a compress or cloth pad over the artery. Fasten it firmly by a handkerchief or bandage, which may be tightened by twisting in a stick as a binder. The location of the artery can generally be determined by the throbbing sensation. If from a vein, apply pressure directly over the wound or by exposure or application of cold water, Perchloride of Iron may be applied with cloth or lint. Keep the part elevated.

WOUNDS—The part should be properly cleansed of all foreign matter, the edges brought together and fastened with strips of plaster; apply anodyne solution, give stimulant, laudanum with brandy, if necessary.

**BRUISES**—Apply tincture of arnica and worm wood or hamamelis; keep well covered and warm.

**POISONED WOUNDS**—From bite of animals—treatment should be prompt. If possible, suck the wound thoroughly two or three minutes; cauterize with either nitric acid, chloride of zinc or nitrate of silver, use whiskey freely internally.

**STING OF INSECTS**—Apply spirits of ammonia.

**POISONS**—General Directions—Give an emetic as soon as possible; tablespoonful of powdered mustard in a tumbler of warm water, or twenty grains of ipecac, after vomiting, give freely of warm drinks.

Special Directions, in case of poisoning from Arsenic, Corrosive Sublimate, Verdigris, Blue Vitrol and from Vegetables kept in copper vessels—Give emetic and white of egg, sweet oil and milk.
